1000W MINI GRINDER TRADE POWER TOOL MIN.FG.910.00 BY ARBORTECH

SKU	Option	Part #	Price
8730279		MIN.FG.910.00	\$399

Model	
Type	Mini Grinder
SKU	8730279
Part Number	MIN.FG.910.00
Barcode	9313478902990
Brand	Arbortech
Packaging + Shipping	
Shipping Weight (Gross)	2.35 kg

Designed for a range of trade applications. This incredibly versatile trade tool is widely used by tilers for grout removal and repair, but also for custom jobs in restoration metalwork and other masonry applications. The extension arm makes it ideal for reaching tight spots that other grinders simply cannot compete with.

50MM GRINDING DISC

The 50mm Grinding Disc is the ideal disc for metalworking. This disc is significantly smaller than standard grinder discs which allow the user to clean up welds and grind or cut in hard-to-reach places that cannot be accessed with larger grinding discs. This would be the perfect disc for metalworkers, welders, and car restorators.

54MM DIAMOND DISCS

The *Diamond Disc* allows the user to cut tiles more precisely than ever before. With a small disc and an extension arm, tile cutting has never been easier. This versatile disc takes the user through tile cutting, re-grouting, cement board cutting, and stone carving with a single blade.

EXTENSION ARM

This unique feature allows for accessibility and is perfect for getting into tight spots seamlessly with precision and high visibility. It allows the user to be accurate in cutting and getting into hard-to-reach places that cannot be accessed with a conventional grinder.

SANDING SYSTEM

The sanding system consists of a rubber backing pad and assorted grit sanding discs (80,180, 320). This is ideal for sanding timber, polishing metal, rust removal, paint removal, and similar applications. The rubber pad sits behind the sanding disc to add robustness and flexibility which will ultimately:

Increase the life of the sanding disc, resulting in a lower rate for replacement

Help the sanding discs mould better to the metal or timber.

hello@beyondtools.com

Variable Speed

The 6 speed settings range from 6,000 to 19,500 RPM, allowing the user to control the aggressiveness of grinding and sanding operations.

Vibration Reduction

The vibration reducing handle increases user comfort and ergonomics. To add to this, the Mini Grinder Trade is a compact, lightweight option for grinding, yet it does not compromise on performance.

DUST COLLECTION

The Dust Extraction Attachment can be fitted to the tool and attached to a vacuum hose. This feature keeps work spaces free from silica dust, particularly important for those who perform their work in small, poorly ventilated areas.

Specifications:

Range Speed: AUS: 6,000 rpm- 19,500 rpm @ ext. spindle

Max. Blade Dia. 54mm

Disc Bore 9.5mm

Mx. Cutting Depth 10mm

Power Output 1000 Watt

Rating: Aus: AC, 230-240V, 50Hz (MIN.FG.910.00)

Tool Weight Approx. 2.35 kg

Includes:

Mini Grinder Trade 1000W Power Tool

54mm x 1.2 Diamond Disc

54mm x 1.5 Diamond Disc

50mm Grinding Disc

Rubber Pad (Sanding)

Sanding Discs (80, 180, 320 grit)

Dust Extraction Accessory
