Featuring our most powerful motor yet!

The *Power Chisel™* a free hand power carving tool that makes it possible to do detailed carving and chiselling just like a traditional hammer and chisel, without the manual work. Loved by chiselling enthusiasts worldwide it comes complete with a set of 7 chisels in a chisel pouch.

The dedicated Arbortech motor is powerful - 1000 Watt and 11,000 strokes per minute equals smooth, quick, and effective chiseling. With an enhanced motor, this tool now has a much lower vibration, significantly less noise, and a much longer life.

The *Power Chisel™* is extremely easy and safe to use. The chisel only engages and starts to move when pressed onto the timber and the hammering movement of the chisel is 1mm. This allows you to hold and guide the chisel safely while working, also giving exceptional control.

The tool has long been a favourite amongst chiseling enthusiasts around the world in particular in the creation of signs, lettering, and template work. The precision of hard chiseling without the hard work.

Designed with versatility in mind, the *Power Chisel™* is equipped with 7 different chisel profiles and a chisel pouch for storage.

The range of chisel profiles allows you to carve, create lettering, texture, and detail on your woodworking projects but also strip paint and other practical applications.

The movement of the chisel is smooth, controllable with a continuous flow thanks to the 1mm back and forward movement. Depth, as well as, the direction of carving can be very easily controlled with high precision and perfect visibility.
