Sanding Belt Speed	210 - 410
Dimensions	
Product Weight (Net Weight)	3.4 kg
Warranty	
Warranty	5 Years
Packaging + Shipping	
Shipping Weight (Gross)	3.4 kg

Designed for the professional carpenter, remodeler, and general contractor; the Milwaukee M18 FUEL™ Belt Sander is optimised for maximum power, portability and productivity on the jobsite. The POWERSTATE™ Brushless Motor and REDLINK PLUS™ intelligence delivers maximum belt speed at 410 SMM with less bog down under load for more aggressive material removal and ensures protection from overload, overheating, and over discharge. The variable speed dial offers adjustment from 210 SMM to 410 SMM for maximum control in a wider variety of materials. The dust collection system, paired with the durable dust bag or universal hose adapter minimises clean up time through a cleaner work environment. The tool-free adjustable pommel allows for flush sanding against the front of the sander and offers a more compact size for storage. This battery-powered belt sander also features automatic belt tracking, a tool-free belt tracking knob, dual-LED lights, a tool-free belt change lever, and a lock on button.

Features:-

The dual-LED work lights illuminate the work surface and offers ultimate visibility in low light environments
Automatic belt tracking technology keeps the sanding belt centred on the drive rollers for straight alignment
Tool-free adjustable pommel provides a compact footprint for storage and allows for flush sanding against the flat nose
The tool-free belt change lever allows for quick belt changes to minimise downtime between sand belt changes
