Shipping Weight (Gross)	0.226 kg

Our 2.2Kg (5lb) 50 in. Quick-Connect Retractable Tool Lanyard helps you stay safe and productive while working at heights by reducing the risks associated with dropped tools. We designed this retractable lanyard for lasting durability and to survive more drops. The tool lanyard is constructed with stainless steel components to maintain retraction and prevent dropped tools. For greater control, the push to lock design easily locks the retractable lanyard cord at the desired length within the 50 in. working range. The abrasion-resistant lanyard cord withstands the demands of the jobsite. The dual locking, swivelling Quick-Connect carabiner allows you to make fast swaps between tools and is compatible with our other MILWAUKEE® Quick-Connect Accessories for maximum productivity. This Retractable Lanyard is also ANSI 121-2018 compliant.
