The M18 FUEL™ 1/4" Hex Impact Driver features the POWERSTATE™ Brushless motor which delivers maximum power for a full range of capabilities to complete the widest variety of applications. Increase productivity on the jobsite with fast driving speed without sacrificing power or control. REDLINK PLUS™ intelligence delivers Ultimate Trigger Control by providing smooth acceleration for small fasteners to prevent stripping of screws or damaging of materials. Featuring 4-mode drive control provides users with greater control over output speed and power. Self-Tapping Screw Mode is designed to reduce walking when starting self-tapping screws as well as reduce overdriving, breaking, and stripping out screws. The new impact driver also features Tri-LED lighting, illuminating the area of work while eliminating shadows.

Features:

- Enhanced motor gives the M18FID3 0 - 4,400 IPM and 226 Nm of Max Torque
- Provides the user the ability to deliver power to more demanding applications back-to-back
- Enhanced motor delivers an improved 3,900 RPM when compared to previous generations
- Provides the user with increased range of speed to complete application fast and with minimal downtime
- Redesigned trigger mechanism with improved fitment and smoother acceleration
- Tri-LED lighting illuminating the area of work while eliminating shadows
- 4-Mode Drive Control provides users with greater control over the output speed and power
