Wool is well known for its insulating properties in both hot or cold environments, even when wet. Perfect for our diverse Australian climate. Our Wool blend provides the best of each materials properties, allowing for a warm comfortable sock with a soft feel and good elasticity and wear resistance. Strategic placement of hardier Nylon yarns reduce the likelihood of damage in hard wearing areas.

*Wool and viscose fibres mixed with Nylon throughout the cuff and arch area for insulation and softness.

*Rugged dual layer construction with Nylon outer shell for durability and Wool/Viscose /Elastane soft pile inner for extra comfort, cushioning and insulation properties.

*Nylon toe cap and heel for added toughness in these high wear areas.

CARE INSTRUCTIONS:

Cold or warm, gentle machine wash.

Line or warm tumble dry inside out.

Do not bleach.

Do not Iron.
