Teeth	24T
Technical - Saw	
Blade (Main) - Bore Size (mm)	20mm
Blade (Main) - Diameter (Max.)	165 mm
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Milwaukee®'s Track Saw Blades are designed to deliver accuracy and finish quality cuts in all Track Saw applications. The 24T General Purpose blade has optimised specs to ensure fast cuts and longer runtime for more productivity when paired with a cordless Track Saw. Its laser cut, resin filled vibration slots absorb vibrations and reduce wobble for increased accuracy. An anti-friction PTFE coating protects the blade against heat and friction for cooler, smoother cutting. Cobalt infused Tungsten Carbide teeth extend cutting life and maintain tip sharpness.

Features:-

Designed for use with M18 FUEL™ Track Saw (M18FPS55-0).

Compatible with all 165x20mm Track/Plunge Saws.

24T for fast cuts in softwood, hardwood, plywood, OSB, treated timber.

Thin Kerf design: For more cordless track saw runtime.

Laser cut vibration slots: Resin filled slots to absorb vibrations and reduce wobble for increased cutting accuracy.

Anti-friction coating: Anti-friction PTFE coating for cooler & smoother cuts.

Cobalt infused carbide teeth: Extend cutting life and maintain tip sharpness.

Specifications:

Cutting Materials: Softwood, hardwood, plywood, OSB, treated timber
