

4.5L 18V M CLASS CORDLESS MOBILE DUST EXTRACTOR + VACUUM HIGH POWER BLUETOOTH SET CTMC SYS HPC 4,0 SCA 8 I-PLUS F28900 BY FESTOOL

For carrying: The cordless extractor in the Systainer format.

Always by your side, without a cable. Systainer on the outside, cordless extractor on the inside. Our Systainer extractor offers maximum mobility and independence with minimal weight – perfect for transporting and carrying. This makes it the ideal partner for service work and small tasks, as well as occasional spontaneous use. In dust class M, it enables dust-free work without a socket. It excels here with maximum suction power thanks to the 36 V turbine with 2 x 18 V battery packs. And, just as usual, everything is compatible: The extractor, smooth suction hose, cordless tool, T-LOC Systainer connection.

The innovative Bluetooth® autostart or the practical remote control ensures the perfect combination of the cordless tool and the extractor. This makes the system perfect in every way.

*****Important*** Product only compatible with 18V Li-Ion 4.0 Ah Airstream Bluetooth High Power Battery Pack (205304)**

Strengths and benefits

Maximum mobility: Compact Systainer format and minimum weight, therefore ideal to transport

Convenient: Thanks to the shoulder strap, easy to carry and just as large as it needs to be, thanks to the removable hose holder

Independent: Extraction entirely without a socket with 2 x 18 V (4.0 Ah) battery packs

Powerful: Thanks to the 36 V turbine, power comparable to a corded extractor

Adjustable: Three levels for setting suction power

No interruptions: Work continuously with four battery packs and a TCL 6 DUO rapid charger in most cordless applications

hello@beyondtools.com

Practical: The extractor switches on via the remote control or the Bluetooth® battery pack

Compatible: Can be connected with Systainers and can be integrated into both vehicle equipment

Healthier work: 99.9% filtration in dust class M

Bluetooth® functionality for extractor, remote switch-on for cordless tools

only suitable for dry extraction

Main Applications

Ideal for mobile use for servicing work

Dust extraction of cordless tools thanks to integrated Bluetooth® function

For minor and brief sanding, sawing and drilling work

Ideal for final clean-up

For dust with limit values > 0.1 mg/m³

Easy to transport, for less running around

Low weight, the Systainer size and the shoulder strap allow you to simply hang the extractor over your shoulder, leaving your hands free for any tools or other materials you might need.

Highly absorbent

Power to rival the corded version, thanks to the 36 V turbine with 2 x 18 V battery packs (4.0 Ah).

Just as big as it needs to be

By detaching the hose garage, the CTC SYS can get even smaller.

Bluetooth® technology built in

Ideal interaction with Festool cordless tools. Quick and convenient: the extractor is switched on automatically via the Bluetooth® battery pack.

Practical remote control

Switching on the dust extractor via the remote control right on the suction hose saves you going to the extractor. Ideal for cleaning between work steps.

Suction power adjustment

Suction power adjustable in three levels. You can choose the right level for your application, to extend the running time of the battery.

Smooth suction hose

Smooth, elastic and extremely tough. The suction hose boasts impressive flexibility, gliding over any edge.
