The M12 AXIS™ Heated Women's Jacket delivers heat built for lightweight durability. Powered by M12™ REDLITHIUM™-ION Battery Technology, this stylish jacket features an advanced heat technology system utilizing carbon fiber heating elements to create and distribute heat to the chest, back and shoulders. A single touch LED controller heats up the battery heated jacket to three heat settings, creating a comfortable heat for any environment. A hidden battery pass-thru pocket construction allows for front or back battery placement, increasing comfort and versatility depending on the situation. With re-engineered AXIS™ Ripstop polyester fabric, the AXIS™ women's jacket protects users from abrasion and prevents tears from spreading in harsh jobsite conditions.

### Features:

One-touch LED controller with (3) heat settings per zone

(High, Medium, Low)

3 Heat Zones: Chest, Back, and Shoulders

Up to 12 hours runtime when used with M12™

REDLITHIUM™-ION 3.0Ah battery pack

Durable M12 AXIS™ RIPSTOP construction resisting abrasions and tearing whilst providing water and wind protection

Reinforced high wear zones provides additional durability

Compressible lightweight structure

Dropped shoulder seam and under arm gussets for improved flexibility
