The M12 AXIS™ Heated Women's Jacket delivers heat built for lightweight durability. Powered by M12™ REDLITHIUM™-ION Battery Technology, this stylish jacket features an advanced heat technology system utilizing carbon fiber heating elements to create and distribute heat to the chest, back and shoulders. A single touch LED controller heats up the battery heated jacket to three heat settings, creating a comfortable heat for any environment. A hidden battery pass-thru pocket construction allows for front or back battery placement, increasing comfort and versatility depending on the situation. With re-engineered AXIS™ Ripstop polyester fabric, the AXIS™ women's jacket protects users from abrasion and prevents tears from spreading in harsh jobsite conditions.

Features:

- One-touch LED controller with (3) heat settings per zone (High, Medium, Low)
- 3 Heat Zones: Chest, Back, and Shoulders
- Up to 12 hours runtime when used with M12™ REDLITHIUM™-ION 3.0Ah battery pack
- Durable M12 AXIS™ RIPSTOP construction resisting abrasions and tearing whilst providing water and wind protection
- Reinforced high wear zones provides additional durability
- Compressible lightweight structure
- Dropped shoulder seam and under arm gussets for improved flexibility
