Our 14" (355mm) Aluminum Pipe Wrench with POWERLENGTH™ Handle challenges the status quo of a 14" pipe wrench. The 14 inch slim profile wrench head makes it easier for you to access tight spaces and overhead applications. The new-to-world POWERLENGTH™ handle is longer than competitive pipe wrenches giving you maximum leverage. Like our previous pipe wrenches, the 14L Aluminum Pipe Wrench features an OVERBITE JAW™ design with a 50mm (2") capacity, giving you the largest gripping surface. Dual coil springs offer you maximum durability and tool life. The ergonomic handle form has been designed to give you maximum comfort and won't dig into your palms while in use. Our 14" (355mm) Aluminium pipe wrench features tough, hardened jaws to give you increased grip and tooth durability. MILWAUKEE® stands behind their product and offers a Limited Lifetime Warranty with all pipe wrenches.

Features:

POWERLENGTH™ Handle - Greater leverage

OVERBITE JAW™ Design - Greater gripping surface

Ergonomic Handle Design - Helps prevent fatigue and slip

Tether-ready handle loop

Jaw Capacity 50mm (2")

Specifications:

Jaw Capacity: 50mm (2")
