

SYS 18V ENERGY SET 2 X 4.0AH TCL6 DUO IN SYSTAINER 577106 BY FESTOOL

SKU	Option	Part #	Price
87432385		577106	\$449

Model	
Type	Energy Set
SKU	87432385
Part Number	577106
Brand	Festool
Packaging + Shipping	
Shipping Weight (Gross)	0.0 kg

Features

The Festool Energy set is the ideal addition to the Festool Basic variants and also offers additional battery packs for the workshop and construction site.

Available with different equipment according to the individual main applications and energy requirements. Always with sufficient space for a total of four battery packs – of which two can be charged at the same time using the TCL 6 DUO rapid charger.

Particularly practical: You no longer need to look for another socket for a second charger – making work easy and saving time on construction sites, in bodyshops and in vehicles.

Of course everything cleanly packaged in the Systainer³ and fully covered by Festool Service.

The perfect addition: Thanks to the Li-HighPower cell technology, the Li-HighPower battery packs are powerful enough for any application and compatible with all Festool cordless products. (For machines with extremely long-lasting power needs, such as the AGC 18 cordless angle grinder and the DSC-AGC 18 FH cordless freehand cutting system, we recommend the energy sets with BP 18 battery packs with 5.0 Ah or 8.0 Ah.)

Convenient: Weighing less than 600 grams, the included Li-HighPower Compact battery packs are both 20% lighter and 50% more compact than a 5.0 Ah standard battery pack

Dust extraction starts automatically: The Bluetooth® battery packs automatically start the connected mobile dust extractor when the tool is switched on

With smart extensions: The Festool WorkApp enables clever additional functions in combination with the Bluetooth® function of the battery pack, such as the detailed display of the charging status and further operating data such as temperature or charging cycles. To quickly and easily identify the battery with the lowest charge status, you can flash the LED indicator directly on the battery pack. Software updates are also possible: Install the newest version to work with the latest tool functions at all times

hello@beyondtools.com

Charges two at the same time: The DUO rapid charger charges two battery packs at exactly the same time. This makes it suitable for all battery packs from the 10.8 V, 14.4 V and 18 V classes (with the exception of BP-XS for CXS/TXS 10.8 V). The separate LED display at both charging slots shows the current charge status of each battery pack at any time

Safely stored: Stowed in Systainer³ products with sufficient space for a total of four battery packs and the DUO rapid charger

Mobile: Packed in a Systainer³, the Energy-Systainer can be integrated perfectly into the bott vehicle fixture for easy transport from the body shop to the building site

Better with a system: The Systainer³ is compatible with and can be attached to all previous Systainer generations, mobile dust extractors and many more system accessories

Completely covered. Of course, the DUO rapid charger and all battery packs are also fully covered by Festool SERVICE as an ideal addition to the Basic variants or as additional battery packs for the workshop or construction site
