Unbeatable precision

The DSC-AG 125 diamond cutting system with its efficient dust extraction system protects your health when working. In combination with the Festool guide rail, precise cuts can be made to doors, windows, grooves and expansion joints in the floor area.

**Cutting building materials with minimal dust**

With the DSC-AG 125 diamond cutting system for clean and precise work up to a cutting depth of 27 mm.

**Precise and clean**

Thanks to the plunge cut function on the DSC-AG 125, the cutting can commence at any point on the floor.

**Dust-free even without a rail**

The addition to the diamond cutting system - the DSC-AG 125 FH freehand cutting system for free-hand cuts on mineral panel materials, when repairing cracks or carrying out repairs on masonry. Even close to the edge.
