Brand	Festool
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg
Quantity Per Pack	100

Features

Always by your side, without a cable. Systainer on the outside, cordless extractor on the inside. Our Systainer extractor offers maximum mobility and independence with minimal weight - perfect for transporting and carrying. This makes it the ideal partner for service work and small tasks, as well as occasional spontaneous use. In dust class M, it enables dust-free work without a socket. It excels here with maximum suction power thanks to the 36 V turbine with 2 x 18 V battery packs. And, just as usual, everything is compatible: The extractor, smooth suction hose, cordless tool, T-LOC Systainer connection.

The innovative Bluetooth® autostart or the practical remote control ensures the perfect combination of the cordless tool and the extractor. This makes the system perfect in every way.

*****Important*** Product only compatible with 18V Li-Ion 4.0 Ah Airstream Bluetooth High Power Battery Pack (205304)**
