Part Number	103ASS
Barcode	9314028201396
Brand	Josco
Technical - Main	
Sanding Disc Speed	4,600RPM
Packaging + Shipping	
Shipping Weight (Gross)	0.55 kg

The Josco Crimped Stainless Steel Wheel Brush is ideal for light paint, rust and contaminant removal on stainless steel and aluminium surfaces. The crimped wire construction allows for softer brushing, and works best for light/medium duty applications. If you require a heavy duty brush, Josco recommends using a twistknot wire instead.

This brush is a part of Josco's new and improved wire brush range. The crimped wire wheel brushes have increased wire density to make them perform better and last longer. The stainless steel brush used a 316 grade premium stainless steel wire, which is ideal for Australia's harsh climate conditions. It also has an increased resistance to corrosion in marine environments.
