The M18 FUEL™ HAMMERVAC™ 32mm Dedicated Dust Extractor features an inline design engineered to connect directly to and be powered by the MILWAUKEE® M18 FUEL™ 32mm SDS Plus D-Handle Rotary Hammer with ONE-KEY™. Utilising the same replaceable certified HEPA filter as other HAMMERVACS™, which filters 99.97% of all particles greater than 0.3µm, means more compatibility on the jobsite. The built-in adjustable depth stop and ruler offer easy and precise adjustments. This extractor features the AUTOPULSE™ Filter Cleaning Mechanism that automatically cleans the filter after each use, ensuring users are able to drill more effectively and for longer before needing to empty the dust box. The dust box comes equipped with a vacuum port that allows users to suction out the dust using a compliant dust extraction system (Class M recommended as a minimum), ensuring minimal exposure.

### Features:

- Certified HEPA filter can remove at least 99.97% of airborne particles with a size greater than 0.3 microns
- AUTOPULSE automatic filter self-cleaning mechanism
- Easily and precisely adjusts for accurate hole depths
- Accurate, repeatable hole depths up to 203mm (8")
- Removable and switchable design
- Translucent dust box allows user to see dust level
- Connects directly to and is powered by the M18 FUEL™ 32mm SDS Plus D-Handle Rotary Hammer with ONE-KEY™
