The CORE Cross Over is a new crosslink design featuring floating shoulder and leg straps. The harness includes two attachment points located on the centre front and centre back. Suitable for fall arrest from both front and rear D-rings. The cross over design is a ideal choice for female workers, reducing the chance of injury in the chest area in the event of a fall. Certified to: AS/NZS 1891.1:2007

- Large permanently upright D-ring fall arrest rated.
- 2/3 bar buckle connection.
