The M18™ Brushless ¼" Hex Impact Driver allows for better access in tight spaces while being lightweight and portable with a total length of only 112mm. The brushless motor technology provides 192 Nm of torque and up to 3600 RPMs for increased productivity and fast fastening speed. Our REDLINK™ Intelligence optimizes the way the M18™ REDLITHIUM™ batteries work with the impact driver for best-in-class performance. Premium components and an all metal gearcase provide durability that professionals require. The M18™ Brushless ¼" Hex Impact Driver is part of the M18™ system making it fully compatible with over 250+ solutions.

### Features:

With a total tool length of only 112mm the M18 BLIDR 0 can be used in tight access areas with ease and control.

Having a total skin weight of only 0.77kg, the tool offers maximum portability whilst reducing work related fatigue.

With 3-Mode drive control, users can easily adjust the Impact Driver's output to suit their applications need.

A variable speed trigger allows users to feather the trigger for more precision-based tasks, preventing over-driving of fasteners.

With up to 192Nm and a max of 3,600 RPM the M18 BLIDR 0 is designed to maximize productivity for a range of application types.

### Specifications:
