Shipping Weight (Gross)	1.48 kg

Light, compact and impressively strong. The 18-volt CXS/TXS 18 compact screwdriver is your ideal helper for the most varied everyday work. The ergonomic C shape facilitates precise working through the grip position in the drilling and screwdriving axis. A number of attachments find solutions for the most difficult applications - perfect also for narrow spaces or corners. Fast tool change is secured by the FastFix interface and the CENTROTEC system. Clever details like the bit holder, the light control and the lid compartment Systainer³ make the CXS 18 a compact powerhouse with practical special equipment.

Impressive ergonomics and low weight for easy drilling and fastening.

The compact, handy shape makes work easier, even in cramped spaces.

The ergonomic C-shape of the direct handle in the screwing axis enables more targeted power transmission and more precise work

Quick conversion to drilling, screwdriving, angular drilling and angular screwdriving without the need for tools thanks to the FastFix interface.

The depth stops and eccentric adapter also enable depth-limited screwdriving close to edges.

Including exchangeable CENTROTEC tool chuck and 10 mm FastFix keyless chuck.

Numerous attachments for a variety of applications. All attachments of the current 18 V screwdrivers are compatible with the CXS 18 and TXS 18.

hello@beyondtools.com

High-quality 18 V battery pack with workpiece-friendly rubber coating, charge indicator and 3.0 Ah for a long service life included in the scope of delivery

Long life also thanks to brushless EC-TEC motor.

Integrated magnetic bit holder.

The work area is optimally lit by LED lighting that can be switched on (in conjunction with a Bluetooth® battery pack, can also be controlled via the Work App)

For left-handed people, the Work App can be used to reverse the right-hand/left-hand selector switch such that the switch no longer causes disruption by protruding into the handle area during the main application - in clockwise rotation (only in combination with a Bluetooth® battery pack).

The CXS 18 comes in a practical lid compartment Systainer³ for quick access to drilling and screwdriving accessories

Simply mobile: the CXS 18 comes in a handy Systainer³ and so can be seamlessly integrated into both vehicle equipment for easy transportation from the workshop to the construction site

13 torque settings and torque switch-off for precision fastening.

Robust belt clip that can be mounted on both sides.

Main applications

Furniture, fittings and kitchen assembly

Installation of skirting boards, boxes, lamps, curtains

Interior finishing

Manufacture of façade panelling and patio decks

Light and medium drilling and screwdriving in wood, metal and plastic

Drive screws into wood up to 6x240 mm

Drilling in wood up to 35 mm with Forstner drill bits
