Designed for the professional carpenter and remodeler, the MILWAUKEE® M18 FUEL™ 1/2" Router delivers best-in-class cordless performance with 2.25 peak horsepower, control and comfort in application, and 68 linear metres of runtime per charge. The POWERSTATE™ Brushless Motor delivers less bog down under load for clean, precise cuts and increased productivity. REDLINK PLUS™ intelligence ensures maximum performance and protection from overload, overheating, and over-discharge. The ergonomic BODYGRIP® and overmoulded pommels provide control and comfort in application to enhance precision and reduce fatigue. The M18™ REDLITHIUM-ION HIGH OUTPUT 6.0Ah Battery (not included) provides 68 linear metres per charge of 15.88mm roundover in pine and the power to tackle the toughest applications found on the jobsite. The variable speed dial has an adjustment range from 12,000 to 25,000 RPM to optimise cuts across a wide range of bits and materials. The router is equipped with a micro-adjust knob and macro-adjust button with over 50.8mm (2") of travel to provide users with fast and accurate depth adjustments. The cordless router features dual-LED lights to illuminate the work surface, a spindle lock for quick one-wrench bit changes, and a modular console design for compatibility with the Milwaukee® 1/2" Router Plunge Base (RBA1) (not included).
