

## SYSTAINER SAW MOBILE UNDERFRAME 577001 BY FESTOOL

SKU	Option	Part #	Price
87433515		577001	\$595

Model	
Type	Table Saw
SKU	87433515
Part Number	577001
Barcode	4014549391037
Brand	Festool
Dimensions	
Product Weight (Net Weight)	18.13 g
Country of Origin	
Manufactured in	Germany
Packaging + Shipping	
Shipping Weight (Gross)	18.13 kg

The UG-CSC-SYS underframe is the ideal 3-in-1 solution for your assembly jobs. It acts as a hand cart for transport from the vehicle to the point of use – allowing you to easily roll an entire tower of Systainers of up to 80 kg to the construction site.

The foldaway legs are folded out in an instant, giving you a worktable of 58 x 58 cm in size; a practical alternative to trestles. Workpieces are securely clamped on the surface via the perforated top. However, the underframe demonstrates its full ability in combination with the CSC SYS 50 cordless table saw.

This is securely positioned in the holes of the work space – and already you're working at an ergonomic height of 90 cm. The legs simply remain folded in when using the CSC SYS 50 cordless table saw close to the ground, e.g. when laying a floor.

The "shovel" that just served as a transport surface for the Systainers is now set up as an ideal support for long workpieces for all rip cuts, cross cuts and angled cuts.

Versatile: Transport aid, worktable and underframe for the CSC SYS 50 cordless table saw in one

Resilient: Transport a Systainer tower up to 80 kg. The Systainers engage securely on the base plate. Additional fixing possible with a lashing strap

Saves space: Folded together, the underframe takes up barely any space in the vehicle

Practical: The foldaway legs are folded out in an instant. Unevenness in the floor is compensated for by a foot compensation on one of the foldaway legs

Stable support: The typical Festool hole pattern of the worktop allows secure clamping of workpieces with clamp clips and lever clamps

A perfect fit: The ideal combination with the CSC SYS 50 cordless table saw. Creates a working height of 90 cm, offers a stable support for long workpieces. The legs remain folded in when working close to the ground (working height 24.5 cm)

puts the CSC SYS 50 cordless table saw at a working height of 90 cm (with legs folded out)

Main applications

Ideal underframe for CSC SYS table saw installation

Suitable for transporting Systainers in the tower in its role as a hand cart, the blade bears 80 kg

Suitable as a mobile worktable with a load of 100 kg

**Sturdy rollers**

Rubberised rollers are designed for a load of up to 80 kg.

**Safe transport**

Systainers engage securely in the base plate. They can also be fixed with a lashing strap.

**A firm grip**

The handle for pushing and pulling is accessible at any time due to its clever shape. If the underframe is set up as a worktable, it is located underneath the work space and is never in the way.

**23 Exhibition Drive, Malaga Western Australia**

Monday - Friday 7am-5pm + Sat 8am-4pm

**Sales Centre** for Sales, Advice + Orders
