Features

6:1 gear ratio, fold-away, rotating hub for faster rewind and reel protection during storage

Single hand hub lock allows user to stop line in place and snap lines with only one hand

Nesting end hook retracts into a nested position, protecting the hook from unwanted snags

Reinforced string perfectly braided for the best balance between chalk retention and reduced overspray

One-way chalk refill valve designed for quick refills without the mess

Quarter-turn release for secondary access to the chalk box

Reel sold with red chalk
