Features:

Guarantees efficient dust and chip extraction, extremely important for sawing, sanding or routing work on site or in the workshop

Compact and lightweight, it's clever flat filter design maximises the volume of dust that can be held while maintaining high suction power.

Suction power is adjustable and the switch on/shut off function allows the extractor to turn on automatically when required and turn off when not.

Approved for dust class M, and with the option of fitting air modules, Festool's CTM 26 with HEPA promises healthy, dust free working conditions at every job.
