Boiling water wherever the job takes you with the 18Vx2 LXT Kettle. (DKT360). With an 800mL water capacity the DKT360 will boil water at 23 °C in 8-minutes. The durable design with dual layer insulation has high heat retention on the inside while keeping the housing cool to touch on the outside. Additionally packed with a handful of safety features the kettle has a tip over spill guard preventing water from spilling out if the kettle is knocked over. An auto shutoff with boil dry protection and ground sensor ensuring the base must be on a flat surface before boiling. Whether you on a camping trip, at the park or on a jobsite the DKT360 is a must have for your next adventure.
