Brand	Joseph Marples
Country of Origin	
Manufactured in	Sheffield, England
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

These gauges use the best quality beech from plantation grown/FSC sources. Supply the traditional half round' gauge and the modern square head patterns in all combinations. All gauges are offered with either plain heads or inset brass face wear plates. The head is secured to the stem with a plastic thumbscrew. Marking Gauge - for marking parallel lines to edge with the grain. Cutting Gauge - for scoring across the grain and can also be used for gutting strips of wood veneer and small rebates. The cutter is secured in place with a brass wedge which also enables removal for sharpening the cutter. Combination Marking & mortise Gauge - combines two functions; one side is for laying out mortises by means of two spurs, one adjustable with a brass pullslide. The other side has a single spur for marking.

### Options

**Marking Gauge** - for marking parallel lines to an edge with the grain.

**Cutting Gauge** - for scoring across the grain and can also be used for gutting strips of wood veneer and small rebates. The cutter is secured in place with a brass wedge which also enables removal for sharpening the cutter.

**Combination Marking & mortise Gauge** - combines two functions; one side is for laying out mortises by means of two spurs, one adjustable with a brass pullslide. The other side has a single spur for marking.
