**Combination Marking & mortise Gauge** combines two functions; one side is for laying out mortises by means of two spurs, one adjustable with a brass pullslide. The other side has a single spur for marking.

### Options

**Marking Gauge** - for marking parallel lines to an edge with the grain.

**Cutting Gauge** - for scoring across the grain and can also be used for gutting strips of wood veneer and small rebates. The cutter is secured in place with a brass wedge which also enables removal for sharpening the cutter.

**Combination Marking & mortise Gauge** - combines two functions; one side is for laying out mortises by means of two spurs, one adjustable with a brass pullslide. The other side has a single spur for marking.
