The M12 ¼" Hex Right Angle Impact Driver is the ultimate solution for jobs demanding extreme power and speed in the tightest spaces. With a 35.6mm head diameter, and the ability to use with most 1" insert bits, the M12 ¼" Hex Right Angle Impact Driver offers users maximum access for hard-to-reach fasteners. The tool provides the most power and highest RPM in its class, and is optimized to run at full speed throughout the toughest applications. Variable speed with an extended paddle switch provides tradesmen complete control, and the ability to operate their tool from multiple grip positions. Get maximum life out of the M12 ¼" Hex Right Angle Impact Driver. Powered by REDLITHIUM Battery Pack which delivers more work per charge and more work over pack life. REDLINK Intelligence provides optimized performance and overload protection against abusive situations. **Features:**

REDLINK PLUS Electronic Intelligence enables advanced communication between your batteries and tools, allowing for unmatched levels of performance, protection, and productivity.

The Milwaukee ® REDLITHIUM Battery Pack is the most durable pack on the market delivering more run-time, power and longer battery life.

Compact right angle impact driver measures 287mm in length making it ideal for working within confined spaces

Full metal gearbox and gears for superior durability

Multi-handle design for multiple hand positions and maximum comfort

On board fuel gauge and LED light
