Suitable for fitting buffs and wheels to bench grinders and sander/polishers. The Brumby 16mm Tapered Spindle Right Hand are used for fitting buffs and wheels to bench grinders as well as sanders and polishers. **Step 1:** Remove outer guard, grinding wheel and inner guard from the side of the machine that the tapered spindle is to be fitted. NOTE: With the correct thread, the tapered spindle can fit to either the left or right hand side of the machine. **Step 2:** Screw on the tapered spindle. NOTE: the internal thread of the spindle is counterbored to allow the spindle to cover the entire grinder shaft length.

Hints & Tips: Choose the correct internal thread spindle to suit your grinder and discard the unused spindle.
