Most benches are too tall to give you the correct control of your sharpening. When your shoulders are relaxed and your arms extended about waist high you're in a more comfortable position. You can apply the right amount of pressure and get the best results. Based on this all-important observation, Tormek designed the Sharpening Station TS-740 where you will always have the perfect working position, adjustable to your height. Also, with the drawers designed to fit the Tormek accessory kits, your favourite jigs and accessories is always at hand and everything has its place. In short, you get a real sharpening station!

### Custom made drawers

Supplied complete with the Tormek drawer inserts for the accessories that comes with the machine, for the Hand Tool Kit and for the Woodturner's Kit. (Accessories and jigs not included.) Three extra drawers with practical rubber matting.

### Side Storage

If you work with the special stones you can easily store them on the side of the station. Two hooks are included.

### Quality Construction

Auto-return drawer mechanisms for soft closure. Single, centralized lock secures all drawers.

### Durable Finish

Steel cabinet has a scratch-resistant powder coating. Sleek design with rounded corners.

### Tough Work Surface

Hard moisture proof composite work surface.

### Adjustable height

Set the optimal height with the fine adjustment in the feet for a work surface between 750 mm to 830 mm (29 ½" and 32 2/3") in height. Width 578 mm (22 ¾") Depth 390 mm (15 3/8") Perfectly sized for the Tormek sharpening system without being too large or intrusive in a workshop!
