The Kincrome 500kg Vertical Transmission Jack is designed predominantly as a support tool when installing and removing transmissions, featuring a hydraulic foot pedal system with smooth lift and descent. Built to accommodate both large and small transmissions, this unit is ideal for use with FWD, RWD and 4WD cars, offering a wide range of versatility. The wide base, 4-leg design offers safety, security and stability when supporting the removal and installation of transmissions. With smooth nylon castors it is safe and easy to manoeuvre around the workshop.

Features:

- Manufactured to exacting standards
- Hydraulic foot pedal lift
- Suitable for general workshop applications
- Features Dead Man's Handle for added safety
- Can be fitted with drain pans
