Packaging + Shipping	
Shipping Weight (Gross)	0.32 kg

Features:

When starting upshutting down the cordless tool, the connected mains-powered vacuum cleaner starts/stops automatically

Compatible with standard cordless, mains-powered tools and vacuum cleaners available on the market

Manual starting of the vacuum cleaner is also possible with the remote button at the coupling bush of the hose

"Vibration detection" function at the transmitter permits automatic start-up/shut-down of the vacuum cleaner by detecting vibrations

If the vibrations are too low, the transmitter can be connected directly to to the extracting tool using the multi tape

Multi tape to fix the transmitter to all standard hose diameters

Start/stop cordless control replaces the function of the integrated power socket for a mains-powered tool

Specifications:

Radio frequency - 2402 - 2445 Mhz

Mains voltage - 220 - 240 V

Power supply transmitter - CR2032

Signal strength - -6 dBm
