Standard Inclusions	FS/2-KP Guide Rail 1400-1900mm
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Invented and perfected by Festool: The guide rail with adhesive pads. Allows users to make straight and precise cuts when carrying out horizontal work on floors or work surfaces, as well as for applications on walls. Easy to secure of different surfaces using the adhesive pads. It is easy and practical to transport two guide rails since they can be inserted above the Systainers carrying handle. The FS/2-KP guide rail is available in lengths of 1400 mm and 1900 mm.

Features:

- Secure grip: The guide rail with adhesive pads "precise and safe sawing even in difficult positions"
- Practical to transport "the guide rail can be inserted above the Systainers carrying handle"
- Splinter-free cuts "the rubber lip right at the scribe mark prevents the edges from splintering even with angled cuts"
- Coating for smooth running on the machine
- The adhesive cushion strip protects the workpiece surface from being damaged

Main applications:-

Secure grip and no slipping when carrying out horizontal work on floors or work surfaces, as well as for applications on walls

Adhesive pads for a secure hold

The adhesive pads are quick and easy to install in the guide rail cut-outs. Align the guide rail, press down the adhesive pads "and you're ready to start work."

In any position

The adhesive pads can be used to secure the guide rail to work surfaces, floors and walls. This means that straight cuts can be made in any position.

Remove any residue

Even on delicate surfaces, the adhesive pads are easy to remove without leaving unwanted residues and without damaging the surfaces.
