Shipping Weight (Gross)	1.48 kg

Kincrome's ball joint separator is a valuable tool commonly used in automotive repair and maintenance. Its primary application is for separating ball joints from control arms or steering knuckles, which is essential for tasks like suspension work, replacing worn-out ball joints, or servicing the vehicle's steering components.

**Features:**

Used to separate the ball joint from the spindle support arm  
 Chrome-plated finish drop forged steel body with thrust bolt  
 18-24mm jaw capacity  
 2 Step adjustable (30mm to 50mm) to give a greater range for different vehicles
