Part Number	PM-4550
Barcode	878258006378
Brand	Bora
Packaging + Shipping	
Shipping Weight (Gross)	0.0 kg

Legs are independently adjustable in 1" increments. Adjust the height of your Speedhorse XT anywhere from 30" to 36". Compensate for uneven terrain on the jobsite by extending each leg to the height you need.

Get instant setup with the pull of a lever and the easy teardown you love with the Speedhorse! Just readjust the legs back to 30" to fold back into the sawhorse.

Each individual unit can support 1500 lbs. - 200 lbs. more than the leading competitors.

Non-sequential leg folding, pre-drilled top, and end slots for 2x material are all here, ready to help you work!
