Heavy-Duty Steel Construction: Struts are flexible to absorb the impact from heavy objects and machinery, and durable enough to ensure long-lasting, smooth operation.

Durable Polymer P-Tops: P-Tops at each point of contact won't mark the surface of your project or let saw blades cause potential damage to struts.

Room for Accessories: P-Tops feature 360-degree rotational spin and can accommodate all Centipede accessories to expand worksite capabilities.

Table tops sold separately. Product uses four (4) table tops to cover entire surface area.
