### Unlimited power, ultimate experience

The most powerful member of Dremel corded Rotary-Tool family. Dremel 4250 is steady in power throughout toughest applications whether it may be drilling, cutting, sanding or more. If you are seeking high performance, with 175W motor and RPM range from 5.000 to 35.000, Dremel 4250 is the best choice for you. Electronic feedback feature makes sure you get the same level of power regardless of the material type you work on. This is helpful when cutting hard materials to make a clean cut. Cutting, sanding, drilling or routing, tackle toughest jobs with Dremel 4250.

### Design that works for you

Ultimate power comes with ultimate comfort. We have designed Dremel 4250 for you to handle heavy duty applications easily. Ergonomic soft-grip and lower vibration (compared to Dremel 4300) ensures you have better handling in long lasting projects, leaves no room for fatigue. Dremel 4250 runs cooler and has lower noise (compared to Dremel 4000 and 4300) making sure that you enjoy all types of DIY projects. While you are changing your accessories you don't need to waste time looking for your wrench. Dremel 4250 comes with EZ Lock Nose Cap. This in-nose-integrated wrench is always on your tool and great for quick accessory changes.
