Brand	Clifton
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Scraper blade Gooseneck by Clifton Clifton scrapers are made of medium carbon steel with a hardness of RC40/42. This gives them the best balance of edge holding qualities and a flex in the blade for control in using the tool. The regular cabinet scraper is for straight work and the curved scrapers are for irregularly shaped surfaces or when you are scraping very selectively.
