

250MM (10") COMBINATION PLANER & THICKNESSER WITH SPIRAL HEAD CUTTER BLOCK 240V OT-PT1001A BY OLTRE

Premium economy machine ideal for home workshops and education environments and small workshops. Oltre means 'Beyond' in Italian and this machine is certainly beyond expectations! Very solidly built with beautifully ground cast iron tables (Jointer 1125x260mm, Thicknesser 545x258mm) it is more than capable of milling rough sawn timber into a Square all Round board ready for that next project. Featuring a **3hp 15am 1ph motor** and 44, 15mm x 15mm x 2.5mm carbide knives in its Helical Head this machine will produce a perfect tear-out free finish in the most difficult of Australian Hardwoods. The Jointer has a 260mm maximum width and 1125mm table length. The tables lift easily in one piece for a 10 second change into Thicknesser mode with a capacity of 225mm of depth with a 258 width. It also features a Siko style depth of cut gauge. The roller feed is 5.5m/min with a clean take up. This is a quality machine for the Home Hobbyist or Small workshop.

Features:-

Spiral Head Cutter Block for Premium performance with a quieter cut.

Specification:-

Planing table size: 250 x 1,050mm

Thicknessing table size: 250 x 600mm
