

ARGON / CO2 DUAL STAGE GAS REGULATOR (BOTTOM ENTRY) 400214 BY BOSSWELD

SKU	Option	Part #	Price
9801556		400214	\$79

Model	
Type	Welding Gas Regulator
SKU	9801556
Part Number	400214
Barcode	9333424003441
Brand	Bossweld
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg
Shipping Notes	This product is classified as 'Special Order' and generally does not qualify for FREE SHIPPING.

Bossweld Dual Stage Argon regulators are designed for use with TIG and MIG welding processes. Advantage of a dual stage regulator is its ability to deliver a constant pressure, even with a decrease in inlet pressure (cylinder content), giving the welder an accurate and precise flow control. The first stage delivers a constant pressure into the regulator. The second stage performs like a single stage regulator would, except with the benefit of the delivery pressure being relatively constant. The reduction in pressure created by the first stage reduces the final delivery pressure that saves on average 15% gas and money.

Easy to read colour coded gauges

Consistent gas flow

Precise flow rate delivery

Reduce gas wastage

No soldered joints, safety relief valve
