CORNER JOINT CONNECTOR KV 8MM FOR DF 500 50 PACK - 203166 BY FESTOOL

SKU	Option	Part #	Price
9803814		203166	\$245

For use with the DOMINO DF 500 Joining Machine. DOMINO connector fasteners allow you to smoothly assemble and disassemble furniture panels and more with minimal time and effort. The Domino 500 Corner Connector is positioned both in the cupboard panel and the base of the structure with the use of the DOMINO DF 500 Joining Machine. The connectors' large tightening distance and long bolts make furniture assembly significantly easier. Cupboard assembly is therefore no problem, and you can do it easily on your own. The flush-screwed fixture elements protect each furniture component from being scratched. Routing and cutting tolerances of up to 1.4 mm are compensated for without problems by the fixture. The new detachable DOMINO basic structure connectors and furniture connectors are perfectly suited for a panel thickness of 18 mm to 28 mm. Create 50 corner joints.
