BORDO METRIC QUICK SILVER M2 HSS JOBBER DRILLS

DIN338 **118 ° Split Point** (crankshaft point) Split point is self centering and reduces the need for end thrust. Friction at workpiece is reduced. 118 ° point angles are ideal for use in materials such as mild steel and cast iron. The 118 ° point creates easily controlled chips which are wide and thin.

DRILL BIT SURFACE TREATMENT Bright Finish Jobber Drills have no surface treatment and are supplied in the as-ground condition. These tools are suitable for general purpose use, particularly for non-ferrous applications. **Specifications:**

Spindle Speed Stainless Steel RPM: 4838
