

210MM (8-1/4") X 20MM X 60T CIRCULAR SAW BLADE SUIT ULTRA FINE FINISHING 48408824 BY MILWAUKEE

MILWAUKEE's wood cutting circular saw blades maximise life and cutting efficiencies to improve your productivity. An anti-friction coating keeps the blade cool while cutting and resists corrosion & gumming. Laser cutting technology creates the blade from 100% sheet steel to ensure a stable blade that increases cutting accuracy. Laser cut vibration slots minimise wobble and warping during use. A thin kerf design delivers faster cuts as well as more cuts per charge when using a cordless tool. Finally, MILWAUKEE Ultra Fine Finish blades have the same technology as Fine Finish blades but are designed for the highest finish quality and use a high tooth count with High ATB tooth pattern to produce the smoothest surface possible. **Features:-**

Anti-Friction Coating for cooler cuts whilst resisting drag, corrosion and gumming.

Cobalt Infused Tungsten Carbide extends the cutting life and maintains the tip sharpness.

Laser Cut Vibration Slots minimise wobble and warping.

High-ATB Tooth Pattern minimises tear out.

Universal Arbor System includes reduction rings to fit most circular saws.

Optimised for corded and cordless performance.

SKU	Option	Part #	Price
9803933		48408824	\$54.7

Model	
Type	Circular Saw Blade
SKU	9803933
Part Number	48408824
Barcode	045242549474
Brand	Milwaukee
Size	210mm (8-1/4")
Technical - Main	
Blade Kerf	2.1 mm
Blade Hook Angle	12°
Teeth	60T
Technical - Saw	
Blade (Main) - Bore Size (mm)	30mm
Blade (Main) - Diameter (Max.)	210 mm
Features	
Standard Inclusions	20mm Bore Reduction Ring / Bush
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg
